SutcliffePlay

- 1 Check using the Parts List that none of the components are missing.
- 2 Plan the final position of the play equipment ensuring there is sufficient space.
- 3 Stainless steel slides should face north or be shaded to prevent over heating. Slide runouts should be inclined downwards by approximately 2 degrees for drainage purposes.
- 4 Excavate the foundation holes in accordance with the plan.
- 5 Sort and identify parts before assembly. Each leg is numbered to correspond with the foundation plan.
- 6 Position 2 off 300 long spragging irons into the holes provided in each post upright and stand in the foundation holes. Assemble the decks at the positions marked on the posts. Do not tighten the fixing bolts until all the activities have been assembled.
- 7 Assemble the activities onto the posts. Leave fixing bolts loose until all the activities have been assembled.
- 8 Fill the foundation holes to the required depth with concrete.
- 9 Do not allow the equipment to be used until the concrete has set (2 - 3 days) and the required safety surfacing has been installed.
- 10 Tighten all fixing bolts.
- 11 Follow the maintenance instructions supplied.

During installation care must be taken to prevent hazards to children.
Care should be taken if conditions are abnormal.

Maintenance Instructions

Good design
for children
SutcliffePlay

Recommended Regular Inspection and Maintenance

Check stability of structure, tighten connections if required.

Check all uprights at ground level for corrosion and/or rot.
Replace any defective parts.

Check all painted elements for damage, rub down and repaint
or replace as required.

Check chain/ropework assemblies for wear and damage, replace
if required.

Check rotating and pivot points for wear and smooth running
lubricate or replace if required.

Check rubber parts for wear and/or damage, replace if required.

Check tension cables, adjust if required.

Check wear of cables, replace if required.

Check slide chutes for smoothness and any foreign elements,
remove any found.

Check rubber safety surfaces for damage and poor performance,
repair or replace if required.

Check loose fill safety surfaces, remove any foreign elements,
rake level and top up if required.

Disposal Instructions

All components should be broken down into categories of:-

- 1 **Mild Steel** - all Swing Frames, Playzone, Toddlerzone, Teenzone activities, Deck Frames and Springie Frames.
- 2 **Stainless Steel** - all Slides, Mirror Panels.
- 3 **Aluminium** - all Playzone and Toddlerzone Posts.
- 4 **Galvanised Steel** - all Chains and Teenzone Posts.
- 5 **Moulded Rubber Products without steel inserts** - all Toddlerzone Caps and edge details.
- 6 **Timber** - all natural timber, plywood, and MDF panels.

Wherever possible these materials should be taken to specialist recycling organisations and recycled.

In some cases where composite materials are used, then disposal at land fill sites is the only alternative such as:

- 7 **Moulded Rubber Products encasing steel inserts** - all Swing Seats, Deck Tops, Duo/Dizzy Disc Tops.
- 8 **High Pressure Laminate** - all Toddlerzone, Playzone and Teenzone Panels.
- 9 **Steel Core Polypropylene Rope** - all Scramble Nets, Space Nets, Playzone/Toddlerzone Ropes.

Toddlerzone Installation Instructions Rotary Puzzle Panel DZA175

SutcliffePlay

- Prepare holes for posts to required dimensions (if not already drilled).
- Ensure the posts are vertical and the threaded inserts are absolutely parallel to each other.
- Place bracket DZS003 and plastic base PZS001 onto posts and fix loosely with HSS510 M10 x 30 screws and washers.
- Place puzzle panel in position and fix loosely with 4 screws, washers and nuts.
- Centralise panel between the brackets and lightly tighten the 4 screws on the panel.
- Adjust the height of the panel so that the screws are central in the bracket slots and loosely tighten. Ensure puzzle disc spins freely and tighten the 4 panel screws.
- Tighten the bracket screws, ensuring that the disc continues to spin freely.
If the disc is tight, the panel has distorted during the tightening process. Slacken the 8 bracket screws slightly and manipulate the panel to re-site the brackets. Re-tighten, ensuring disc is still free.
- Fix panel fixing covers in place.
- Concrete posts according to installation instructions.

IMPORTANT NOTE

When installing the Puzzle Panel (DZA185) ensure the uprights are vertical and parallel. If the uprights are twisted then the panel will be twisted and the puzzle pieces will stick and not move freely.
