## Mini Town Garage MTU002

# Installation Instructions

# MTU002

## Mini Town - Garage Installation Instructions

1. Check using the parts list that all components have been delivered.
2. Plan the final position of the play equipment, ensuring there is sufficient space  
NB: Please consider the extent of the minimum use zone (see surfacing plan).  
Please note the themed side should face in to the play area, **IF IN DOUBT CHECK!**
3. Excavate the foundation holes in accordance with the plan and play level, ensuring holes are dug to an equal level relative to each other. A line on each post indicates the play level
4. Sort and identify parts before assembly.
5. Bolt posts 3 and 4 to the Garage panel (MPP008) and place in to corresponding holes (holes are numbered to match posts on the foundation plan), do not tighten bolts until the all the fence combination is complete.
6. Secure the Door panel (MPA007) and post 1 in to the last hole
7. Align posts and panel to the vertical position ensuring play level lines on posts are at the correct height in accordance with the elevation, then all bolts and cap off all exposed bolt/ nut heads. (NB it may be necessary to support the fence combination in the correct position).
8. Pour concrete to correct level indicated on the foundation plan. Float off upper surface to enable run-off away from frame posts.
9. The unit should be secured against use by any member of the public until the concrete is set and the appropriate depth and extent of surfacing have been installed (please refer to surfacing plan).
10. Follow the maintenance instructions supplied at the end of this document.  
**NB:** During installation, care must be taken to prevent hazards to children.  
If you are at all unsure or have any questions, please contact the contracts department immediately for their assistance and advice.
