Mini Town Hop & Shop MTU023

(loose fill / wet pour)

Installation Instructions

MTU023

Mini Town Hop & Shop Installation Instruction

1. Check using the parts list that all components have been delivered.
2. Plan the final position of the play equipment, ensuring there is sufficient space.
NB: Please consider the extent and HIC of surfacing (see ground plan).
Although this unit does not require safety surfacing when installed in to grass, no hard edges are permitted within the minimum use zone indicated on the plan.
3. Excavate the foundation holes in accordance with the plan and play level, ensuring the intended safety surface area is level. If you are installing on to any significant gradient, please seek the advice of Sutcliffe Play prior to installation.

NB: DO NOT TIGHTEN FIXINGS UNTIL THE WHOLE UNIT IS ASSEMBLED.

4. Offer the posts into foundation holes, assembling the interconnecting play panels onto them to ensure they are set at the correct dimensions. Please check play level lines on posts are set to the finished play level.
5. Assemble the end bracing legs / activities and the free standing steps in accordance with the ground plan.
6. When all the parts are assembled, tighten all fixings and ensure open rubber caps are filled with blue plugs, use superglue provided to secure in place.
7. Pour concrete into foundation holes as in indicated by the ground plan.
Concrete should be allowed to set fully before being opened for use.

During installation, care must be taken to prevent hazards to children. If you are at all unsure or have any questions, please contact the contracts department immediately for their assistance and advice.
