Fub200 Bean Bench

Installation Instructions

FUB200

Bean Bench Installation Instructions

1. Check using the parts list that all components have been delivered.
2. Plan the final position of the play equipment, ensuring there is sufficient space NB: Please consider the extent of the minimum use zone (see surfacing plan).
3. Excavate the foundation holes in accordance with the plan and play level.
4. Pour concrete to correct level indicated on the foundation plan. Float off upper surface to enable run-off away from posts.
5. The unit should be secured against use by any member of the public until the concrete is set and the appropriate depth and extent of surfacing have been installed (please refer to surfacing plan).
6. Follow the maintenance instructions supplied at the end of this document.

NB: During installation, care must be taken to prevent hazards to children. If you are at all unsure or have any questions, please contact the contracts department immediately for their assistance and advice.
