**DO NOT SCALE FROM THIS DRAWING
THIS DRAWING MUST NOT BE USED
FOR INSTALLATION PURPOSES.**

Part of this unit is suitable for grass installation without safety surfacing if it is sited in a low usage playground. However wear pads of impact absorbing surfacing may be required under areas that sustain intensive use e.g. under slide runouts, fireman's poles and access and exit points, taking care that no trip points or hard edges occur (with wear pads and other safety surfacing).
